

Aldrin Ajoc Maquiling

Fullstack Web Developer

Surigao del Sur, Philippines | +639761203540 | maquiling.aa@gmail.com | [aldrinMag.github.io](https://github.com/aldrinMag)

SUMMARY

Fullstack Developer with over 3 years of experience specializing in scalable backend architecture using Java and Spring Boot. Proficient in building dynamic, responsive client-side applications utilizing Vue.js and TypeScript. Adept at engineering reliable REST APIs and full-stack solutions that ensure efficient client-server interaction and improve overall system performance.

SKILLS

Backend and Databases: Java, Springboot, Node.js, PostgreSQL, MySQL

Frontend: Vue.js, React, Typescript, Javascript, Tailwind CSS, Primevue, Primeflex, HTML, CSS, Figma

DevOps, Tools & AI: Nginx, Fail2ban, Docker, Git, CI/CD, Selenium, Agile, OpenCode, Claude, Gemini

WORK EXPERIENCE

Fullstack Developer, mykuan.app - Remote

June 2023 – Present

- Engineered 30+ reliable REST APIs and robust CRUD operations using Java and Spring Boot to support scalable backend services and efficient client-server interaction.
- Developed a Node.js middleware Proof of Concept (PoC) to evaluate advanced data synchronization methods and inform future architecture decisions.
- Designed and developed 15+ reusable Vue.js components and intuitive UI mock-ups to fulfill dynamic frontend application requirements.
- Authored 20+ automated Selenium tests, driving a commitment to reliable software by increasing test coverage and reducing manual testing by 30%.
- Collaborated with cross-functional teams in Agile/SCRUM environments to align on sprint planning, feature delivery, and continuous system improvements.

PROJECTS

Growgreen (Thesis) | Lead Developer

- Spearheaded the full-stack development of an interactive environmental sustainability platform, managing the end-to-end project lifecycle.
- Architected a scalable backend using Java and Spring Boot to power a gamified system that connects virtual engagement with real-world conservation tracking.
- Engineered a responsive Progressive Web App (PWA) utilizing Vue.js and TypeScript, delivering a seamless, cross-device user experience.
- Integrated Google OAuth2 for secure user authentication and streamlined session management.

Weathercheck

- Developed a real-time weather tracking Progressive Web App (PWA) utilizing Vue.js and Tailwind CSS, delivering a highly responsive layout.
- Integrated the Windy API to fetch and display dynamic atmospheric data, engineering custom UI components for direct access to rain, wind, and storm metrics.
- Optimized application discoverability by implementing fundamental SEO strategies through precise meta-tag configuration.

RentHub

- Developed a modern, responsive business landing page utilizing HTML and Tailwind CSS to establish a professional online presence and showcase core services.
- Optimized site discoverability and web visibility by implementing fundamental SEO strategies through targeted meta-tag configurations.

EDUCATION

Bachelor of Science in Computer Science - Graduated

North Eastern Mindanao State University - Rosario, Tandag, Surigao del Sur

2022 – 2025

Bachelor of Science in Information Technology

Jose Rizal University - 80 Shaw Blvd, Mandaluyong, 1552 Metro Manila

2018 – 2021
